STAFF REPORTS

Police – Scott said the police are dealing with an increase in vehicle thefts and mental health issues, including suicides. He encourages people to communicate with each other as in wellness checks and personal phone calls. Schools have teams which are also checking on students.

Fire – The CCC is still doing fire mitigation in Crestmoor Canyon. Check out the firemap on the FD Facebook page showing the progress being made. Malcolm asked if new signage can be installed on trails for hikers and cyclists. A new program called “Zone Haven” is being pulled together for San Mateo county. It separates areas into Zones to be used for evacuation and information purposes. It will be rolled out soon. It will ultimately be used statewide. A wildfire 360-degree camera is installed on a tower on Sweeney Ridge near the water tower. It is live and can detect flames and smoke.

6. **COMMITTEE REPORTS**

Radio Club – The club submitted a 'wish list' to Chief Delay for needed equipment to expand the disaster communications capability. Members and guests are still checking in to the Monday night nets in spite of the pandemic. We use a repeater on Montara Mountain courtesy of the Coastside Radio Club. Recently, some radio drills were operated on Angel Island in SF bay by other local radio clubs.

Red Cross – Covid testing is being done near the Church of LDS on Sneath Lane. About 500 people attend the drive-through event. Go to smc.gov/testing to make appt and get information. Fire issues are being replaced by landslide fears. The Burlingame office will be shut down within 18 months and RC is looking for a new space.

CERT- A virtual CERT class is being planned. Details are still being worked out how to conduct the skills class.
